ALLOWED OUR COMPANY TO OPERATE
AT AN OPTIMAL LEVEL."**

"We have seen significant cost savings by streamlining processes through the enhancement capabilities that B1UP offers."

Kate Burdge, Systems Manager, Seirus Innovation, Inc.

Get the most out of SAP Business One

SAP Business One is the ideal business system for small and medium-sized enterprises. However, every company is unique and has its own way of doing business, so even a world class piece of management software like SAP Business One has to be tailored to meet specific requirements.

It's a well-known fact that developing customizations can be a headache, using up valuable time and money, and requiring ongoing maintenance and the skills of technical experts.

So what's the easiest way to design a fine-tuned system for your business without the drawbacks of extensive development?

B1 Usability Package is the answer: A high-quality

add-on that enables you to customize SAP Business One with ease, and make it perfectly suited for organizations of every variety.

A broad feature set opens up unlimited possibilities for tailoring and automation, even for non-tech professionals. The B1UP can be used with ease and speed to adapt SAP Business One to a variety of scenarios and improve end-to-end system utilization, boost user experience and dramatically increase return on investment.

B1UP is a must-have solution for companies seeking to unleash the full power of SAP Business One, elevating it to a strategic platform for success in this age of Digital Transformation.

Key benefits and features

ENSURE DATA QUALITY

Data quality is essential to the information flow within a system, and incorrect data can drastically impact business operations and decision-making.

Make SAP Business One foolproof when it comes to data quality:

DATA-CHECK

Create validation rules to ensure that important data is correct.

TEMPLATE SYSTEM

Use templates to enter data quickly and without errors.

DATA MANAGEMENT TOOLS

Easily implement mass updates to documents and master data records.

ENHANCE USER EXPERIENCE

The expectations of users of enterprise software have risen substantially. Easy-to-use apps designed for mobile devices have made users look for a more fluid interaction with the solutions they use at work.

Take advantage of the B1UP's functions to enrich user experience, making your team happier and more productive:

SCREEN DESIGN

Make every window in SAP Business One suit each user's needs.

CUSTOM MESSAGES

Guide and inform users through personalized system messages.

USABILITY

Improve system navigation with custom buttons and right-click menus.

DATA SEARCH

Find relevant information quickly and efficiently in SAP Business One using a Google-style search tool.

QUICK CREATE

Add Items or Business Partner master data on the fly from within marketing documents.

TOOLBOX

Make SAP Business One smarter with 50+ out of the box usability tweaks.

OPTIMIZE YOUR WORK

Use customization and automation to create better, more efficient and streamlined business processes.

Explore B1 Usability Package to perfectly tailor SAP Business One to the way you work:

VALIDATION SYSTEM

Set up triggers and conditions to define your business rules.

AUTOMATION

Design macros to eliminate manual tasks or run system tasks on a scheduled basis.

GO FURTHER

Exchange files, run external applications and connect SAP Business One to other systems and interfaces.

COLLABORATION

Assign automated activities and internal messages to team members.

EXCHANGE RATES

Update rates through global bank providers, including the brand new B1UP Online Services.

Beas USABILITY EXTENSION

Use the most popular B1UP modules in Beas Manufacturing.

ADMINISTRATION TOOLS

Effortlessly manage user authorizations and form settings.

MAKE BETTER DECISIONS

Data is the foundation of your organization's most important asset: Information. Being data-driven about your customers, business performance and organizational effectiveness gives you confidence in making the right decisions.

To cover the entire scope of SAP Business One utilization, the B1UP also offers a set of reporting and analytics tools:

B1 DASHBOARDS

a centralized cockpit of interactive widgets that enables you to analyze up-to-date information and make accurate, data-driven decisions. Web access also available.

DATA VISUALIZATION

Display your data in eye-catching, colorful charts and pop-up dashboards.

CUSTOM REPORTS

Create your own fully customizable reports based on HANA or SQL.

CRYSTAL REPORTS

Display, print or save Crystal Report-based layouts.
